Mice Meeting-

Fellow recreation commission member Rick Mosey is heading a sub-committee for the phase 2 development of the ice rink for the 2011-2012 season. During the last meeting they discussed:

- Equipment- in order to clear the ice in a timely fashion, it is recommended that we need a 22 horse power tractor with a 45 inch blower.
- Lighting to extend the hours to 8:00PM.
- Volunteer duties and responsibilities
- Purchasing an ice shaver
- Shed size for the new equipment (will there be enough room in the current shed?)
